IMPACT! Program

The important contribution of the IMPACT! Program and The Friends of the IDF (FIDF) Organization's work with IDF soldiers over the last two decades, has made it a central program in the development of Israeli society.

The thousands of scholarships awarded to soldiers who became students has transformed generations into academic graduates, talented employees in the Israeli job market and citizens in Israeli society. Alumni contribute to the program, by participating in flagship program activities, where they donate (each according to their own ability) towards new scholarships for the program.

The fact that the program ensures every scholarship continues the cycle of giving, recipients commit to and complete 130 hours of community service activity during their academic years in which they receive the scholarship, this contributes to reducing gaps and strengthening Israeli society.

The IMPACT! program core work influences and is significant for our country, empowering the IDF, its soldiers and civil society in Israel.

In recognition of the program's achievement and contribution to Israeli society, Kinneret Academic College and the Association of Civil-Military Studies in Israel are honored to award
the IMPACT program
